

Jakub Klimkiewicz

Frontend Developer/ Fullstack Developer

My name is Jakub and im passioante fullstack developer from Poland. Really love to make working fullstack applications. I started back in 2020 when i decided to learn something new, i didn't expect that i will like programming! I am ambitious and I would like to learn new skills!

clan-management-bot-pg

Great bot for clans!

2021

This project is made in python and for this bot i chose MySQL database for data from the discord server.

Basically bot is used to clan members management. All users from video game has unique id which can be connected to discord unique id and when you want to ping someone about clan task you can use bot for that. Very easy and secure!

#python, #discordpy, #mysql, #sql, #management

more project can be found on my github..

Skills

Frontend > HTML5, CSS, Javascript ES6 and Typescript, React, Next.js, Tailwindcss

Backend > MySQL, MongoDB, Express, tRPC, Zod, Prisma, Next.js Routes

Other > Java, Python

Interests

Video Games (especially automation games)

Programming

Bike

Football

Languages

English

Polish
